

EMV SWIPER PRICING

~ To Rent the Swiper ~

We are offering the option to rent swipers for \$16 per month, including both hard and soft costs. The monthly rental fees are at ePAY's cost. For your convenience, these fees will be invoiced on a monthly basis via ACH Debit.

Considering this is brand new technology in the U.S. and costs are likely to decrease while technology improves significantly over the next several years, renting is a very prudent option for facilities that want to remain compliant and up-to-date without the distraction of selecting and managing another "funny little box."

Monthly Unit Rental	\$ 16
---------------------	-------

~ To Purchase the Swiper ~

For customers who prefer to own, we are offering the following purchase package. We understand the burden these types of mandates can cause so we are offering these swipers at ePAY's cost. Again, considering the novelty surrounding this technology and its potential fluctuation in price, please also consider the rental option above.

Device Cost	\$161
Powered USB Cable	\$ 22
VMAC and XPI 8.13 + file load	\$ 20
Uniterm License*	\$ 99
Shipping	TBD
Total One-Time Cost	\$302 + shipping

**\$20 Subsequent Annual Fee for Licensing- Uniterm*

Additional pricing information:

- As a reminder, ePAY is providing these devices at cost for our customers.
- All swipers need to be individually configured and encrypted for its ultimate location. This will be handled by our experienced support staff at no cost to the facility.
- Only ePAY EMV card readers are guaranteed to work with and be supported by ePAY under your existing fixed-fee merchant agreement.
