Introducing ePAY Healthcare

ePAY Healthcare is a healthcare payments company that offers payment products for healthcare providers

ePAY Healthcare is a healthcare payments company that offers payment products uniquely designed to meet the needs of healthcare providers.

With ePAY Healthcare you can verify eligibility and co-pays, collect credit and debit cards in the office, allow patients to pay bills online and set up payment plans for your patients.

Benefits of ePAY Healthcare

Our products address every point of the payment process and deliver a clear picture of what the patient owes while providing multiple ways to pay.

Whether being accessed by your staff or your patients, the simple and secure online portal reduces the ambiguity patients encounter with paper statements. This leads to faster payments. Faster payments result in fewer phone calls, reduced billing and collection costs, fewer write-offs, and improved patient satisfaction.

ePAY Healthcare clients enjoy:

- Earlier Payments – 21 days faster compared to traditional methods
- Less Work – 36 minutes staff time savings per patient
- Increased Revenue – 37% more outstanding payment balances collected
- Greater Savings – 25% cost savings on payment management.

With ePAY there are no monthly fees, no annual fees, and no hidden fees – you pay only for what you use. ePAY ensures that your costs and benefits are aligned.
